

**Homogeneity of structures made with self-compacting concrete and conventional concrete**

Hoffmann, C./Leemann, A.

3rd International Rilem Symposium on self-compacting concrete, Reykjavik, Iceland, August 17–20, 2003, PRO 33, ISBN 2-912143-42-X, pp. 619–627

**The early cement hydration: a multi-method approach**

Holzer, L./Winnefeld, F./ Lothenbach, B. et al.

11th International congress on the chemistry of cement (ICCC), cement's contribution to the development in the 21st century, Durban, South Africa, May 11–16, 2003, ISBN 0-9584085-8-0, pp. 236–248.

**Quantitative microfabric analysis of polymer-modified high-porous mortars**

Jenni, A./Zurbriggen, R./ Holzer, L. et al.

11th International congress on the chemistry of cement (ICCC), cement's contribution to the development in the 21st century, Durban, South Africa, May 11–16, 2003, ISBN 0-9584085-8-0, pp. 324–328

**Effect of the addition of ultrafine cement on the properties of fibre reinforced composites.**

Kaufmann, J./Matschei, T./ Hesselbarth, D.

11th International congress on the chemistry of cement (ICCC), cement's contribution to the development in the 21<sup>st</sup> century, Durban, South Africa, May 11–16, 2003, ISBN 0-9584085-8-0, pp. 1683–1691

**What triggers concrete deterioration in aqueous underground environments?**

Romer, M./Holzer, L.

11th International congress on the chemistry of cement (ICCC): cement's contribution to the development in the 21st century, Durban, South Africa, May 11–16, 2003, ISBN 0-9584085-8-0, pp. 1432–1438

**Shrinkage behavior of very dense cement pastes**

Kaufmann, J./Matschei, T.

Sixth CANMET/ACI international conference on durability of concrete, Thessaloniki, Greece, June 1–7, 2003. Publ. ACI SP-212, paper 53, ISBN 0-87031-113-1, pp. 854–870.

**The 3D pore structure of cement paste investigated with DualBeam FIB (Focused Ion Beam).**

Kaufmann, J./Holzer, L./ Indutnyi, F./Gasser, Ph./ Münch, B.

5. Tagung Bauchemie, Munich, Germany, GDCh-Monographien, October 9–10, 2003, Vol. 27, pp. 202–208

**Pressure of self-compacting concrete on the formwork.**

Leemann, A./Hoffmann, C.

3rd Int. Rilem symposium on self-compacting concrete, Reykjavik, Iceland, August 17–20, 2003, PRO 33, ISBN 2-912143-42-X, pp. 288–295

**Alkali-aggregate reaction – identification of reactive silicates**

Leemann, A./Holzer, L.

9th Euroseminar of microscopy applied to building materials, Trondheim, Norway, September 9–12, 2003, 9 p.

**Thermodynamische Modellierung der Hydratation von OPC.**

Lothenbach, B./Winnefeld, F./ Holzer, L.

15. Internationale Baustofftagung (Ibausil), Weimar, Germany, September 24–27, 2003, ISBN 3-00-0109321-3, Vol. 1, pp. 1-0457/1–0466,

**Engineering design methods for service life planning – state of the art**

Moser, K.

International workshop on management of durability in the building process, Milan, Italy, June 25–26, 2003, CD, ISBN 88-387-2935-2, p. 12

**Oszillationsmessungen als rheologische Methode zur zeitlichen Verfolgung der frühen Hydratation von Portlandzementleimen**

Winnefeld, F.

4. Tagung Bauchemie, Weimar, Germany, Sept. 30 – Oct. 1, 2002, GDCh-Monographien, Vol. 25, pp. 167–169

**Monitoring early cement hydration by rheological measurement.**

Winnefeld, F./Holzer, L.

11th Int. congress on the chemistry of cement (ICCC): cement's contribution to the development in the 21st century, Durban, South Africa, May 11–16, 2003. ISBN 0-9584085-8-0, pp. 330–339

**Einfluss verschiedener Sulfatträger auf die Hydratation von Portlandzement – eine praxisnahe Studie an Werkszementen**

Winnefeld, F./Lothenbach, B./ Holzer, L. et al.

15. International Baustofftagung (Ibausil), Weimar, Germany, September 24–27, 2003, Vol. 1, ISBN 3-00-0109321-3, pp. 1-0447 - 1-0456

**Einfluss von Fließmitteln auf die Rheologie und den Hydratationswärmefluss von Zementleimen**

Winnefeld, F./Peters, A.M.

5. Tagung Bauchemie, Munich, Germany, GDCh-Monographien, October 9–10, 2003, Vol. 2, pp. 163–169

<b>2002</b>
-------------

**Der Einfluss der mikrostrukturellen Entwicklung und der Porenlösungschemie auf das Erstarrungsverhalten von Zementpasten.**

Holzer, L./Lothenbach, B./ Winnefeld, F.

GDCh-Monographien, 4. Tagung Bauchemie, Weimar, Germany, Sept. 30 – Oct. 1, 2002, Vol. 25, pp. 51–56

**Eine in-situ ESEM-Studie über mikrostrukturelle Veränderungen polymervergüteter Mörtel während Construction Chemistry der Wasserlagerung**

Holzer, L./Jenni, A./ Zurbriggen, R.

3. Tagung über Bauchemie von der Forschung bis zur Praxis, Würzburg, Germany, September 27–28, 2002. Publ. GDCh-Monographie 24, pp.156–159

**Polymerverfilmung in zementären Systemen**

Jenni, A./Herwegh, M./ Holzer, L. et al.

3. Tagung über Bauchemie von der Forschung bis zur Praxis, Würzburg, Germany, September 27–28, 2002. Publ. GDCh-Monographie 24, pp. 92–97

**Silicates responsible for alkali-aggregate reactivity.**

Leemann, A./Holzer, L.

4. Tagung Bauchemie, Weimar, Germany, September 30–October 1, 2002, vol. 25, pp. 145–147

**Einflüsse von Bergwasser auf Tunnelbeton**

Romer, M./Holzer, L./Pfiffner, M.

GDCh-Monographien, 4. Tagung Bauchemie, Weimar, Germany, GDCh-Monographien, September 30 –October 1, 2002, Vol. 25, pp. 182–184

**Study of ice formation with ultrasonic pulse transit time measurement**

Kaufmann, J.

RILEM PRO 25 - International workshop on frost damage in concrete, Minneapolis, MN, USA, June 28–30, 2002, pp. 161–172

**A qualitative sequential frost deicing salt damage model on experimental data**

Kaufmann, J.

RILEM PRO 24 - 2nd International. Rilem workshop on frost resistance of concrete – from nano-structure and pore solution to macroscopic behaviour and testing, Essen, Germany, April 18–19, 2002, pp. 197–204

**Influence of addition of ultrafine cement on the rheological properties and strength of Portland cement paste**

Kaufmann, J./Winnefeld, F.

Fifth triennial congress on the challenges of concrete construction, Dundee, UK, September 5–11, 2002, pp. 827–836

**Vom Zementmörtel zum belegreifen Unterlagsboden**

Moser, K.

14. KBS Unterlagsboden-Fachtagung, Lenzburg, Switzerland, January 16, 2002, p. 16

**Engineering design methods for service life prediction**

Moser, K./Edvardsen, C.

9th International conference on durability of building materials & components, Brisbane, Australia, March 17–21, 2002, p. 10

**Steam locomotive soot and thaumasite – a case study**

Romer, M.

First international conference on thaumasite in cementitious materials, Garston, UK, June 19–21, 2002, p.5

**Swiss tunnel structures: concrete damage by formation of thaumasite**

Romer, M./Holzer, L./Pfiffner, M.

First international conference on thaumasite in cementitious materials, Garston, UK, June 19–21, 2002, p. 9

**Rheological behavior of portland cement pastes during early hydration**

Winnefeld, F.

24th Annual international conference on cement microscopy, San Diego, CA, USA, April 8–11, 2002, pp. 18–31

<b>2001</b>
-------------

**Effects of post-hydrating portland cement particles in the hardened cement matrix.**

Hofheinz, C./Winnefeld, F./ Knöfel, D.

23. International conference on cement microscopy, Duncanville, Tex., pp. 29–42

**Sample preparation of polymer-modified high-porous mortars for quantitative microfabric analysis.**

Jenni, A./Herwegh, M/ Zurbriggen, R./Holzer, L.

8th Euroseminar on microscopy applied to buildings materials, Athen, September 4–7, 2001, pp. 571–578

**Influence of mica on the properties of mortar and concrete**

Leemann, A./Holzer, L.

8th Euroseminar on microscopy applied to buildings materials, Athen, September 4.–7, 2001, pp. 199–204

**Schädigungsmechanismen der Zementsteinkorrosion: Auslaugung und Sulfatangriff**

Pfiffner, M./Holzer, L.

Symposium über Bergwasserproblematik in Tunnelbauwerken, EMPA Akademie, Dübendorf, November 30, 2001, pp. 9–33

**Bergwasserproblematik in Tunnelbauwerken.**

Romer, M. (Redaktion)/ Holzer, L. (Redaktion)

Symposium durchgeführt durch die EMPA Akademie, Dübendorf, November, 30, 2001, p. 106
