

Laboratory for Joining Technology and Corrosion Metallography UserLab Registration

Empa

Materials Science and Technology

User / Organization Information

Full Name, Empa-Acronym:

Empa Laboratory / Research Group:

Empa Contract Period (User):

Signature Line Manager:

Personal Information

Experience regarding metallographic sample preparation

☐

None

☐

Some Experience

☐

Experienced

Experience regarding work with harmful substances in a chemical lab

☐

None

☐

Some Training

☐

Experienced

Lab(s) requested for the intended application(s)

☐

Preparation

☐

Etching

☐

Light Microscopy

Internal Training Confirmation

1. Initial Safety Instruction performed (Laboratory Level - mandatory)¹

Signature of the corresponding SiKo:

2. Official Empa Safety Training attended (mandatory for etching)²

Signature of M. Nagel:

3. HF-Training performed (mandatory for any work with HF or fluoride-salts)²

Signature (sanitaet.du@empa.ch):

4. Metallography UserLab Introduction completed

Signature of the UserLab responsible:

¹ SiKo signature from applicant's own department (not UserLab)

² Signatures for Training 2 and 3 are only required for working with chemicals and HF in the Metallography UserLab.
