

OHL whole conductor creep testing

Equipment

■ Operating specification

- End clamp(s): To customer requirements
- Temperature: 22-100 °C
- Maximum load capacity: .. 140 kN
- Line length: 7 m
- Control modes: Load or displacement
- Instrumentation: Force - load cell
 - Extension – conductor extensometer (4 ± 0.05 m)
 - Local (wire) strain – resistance strain gauges
 - Temperature - thermocouples
