

EMPAPOSTDOCS-II: LIST OF MENTORS CALL 3 (2019)

Research Focus Areas	Module / Topic	Name
Nanostructured Materials	Printed Electronics; Opto-electronic devices; Solar cells	Yaroslav Romanyuk Yaroslav.romanyuk@empa.ch
	Synchrotron based scanning probe techniques (strong background in surface science required)	Roland Widmer Roland.widmer@empa.ch
	Materials research using THz imaging and spectroscopy	Peter Zolliker Peter.zolliker@empa.ch
	Nano-Micro-structuring by Focused Ion Beams, Ultrasensitive infrared photodetection and miniaturized spectrometers, Electrons, phonons, and photons in low dimensional materials	Ivan Shorubalko Ivan.shorubalko@empa.ch
	Synthesis of novel functional materials	Dorina Opris Dorina.opris@empa.ch
Natural Resources and Pollutants	Air Pollution / Environmental Technology	Lukas Emmenegger Lukas.emmenegger@empa.ch

12.08.2019

The EMPAPOSTDOCS-II programme has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement number 754364.
