--

Protective clothing certified according to the EU directive 89/686/EEC (implemented in the product safety regulation SR 930.111 and paragraph 2 on personal protective equipment respectively) must be innocuous in normal use. With your signature or placing this order you confirm that the material(s) to be tested do not contain any components which, when burned, generate hazardous, toxic substances such as Sioxin, Mercury, Formaldehyde, Acrolein, Phosgene or Hydrofluoric acid and the information given is complete and correct. If the above information turns out to be incomplete or incorrect, Empa is entitled to terminate the contract immediately and without any obligation to pay compensation to the client
